

WORLD LEADING NEW ARRIVAL AT RADIOLOGY SA...

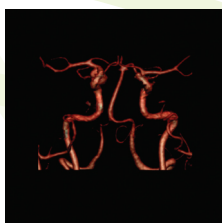

Our new **Siemens 128-slice CT scanner** is the first of its type to be located anywhere in private practice in the Southern Hemisphere. This is an exciting development for Radiology SA and the medical profession in South Australia.

About the Siemens 128-slice CT scanner:

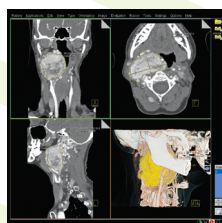

- Provides doctors with more accurate results, particularly for oncology and cardiac patients.
- Potential radiation dose reductions.
- Identifies objects as small as 0.23mm in size.
- Offers faster scan times of around 10-20 seconds per complete study.
- Wide bore for patient comfort.

Leading Imaging for Cardiac

Leading Imaging for Vascular

Leading Imaging for Oncology
